

LEF VINCENT A. FORTE GRADUATE SCHOOL FELLOWSHIP RECIPIENTS

1982-83 Troy J. Campione, Tulane University, Chemical Engineering

1983-84 John E. Coon, Louisiana State University, Chemical Engineering

1984-85 Michael R. Carlson, Tulane University, Biomedical Engineering

1985-86 Michael B. Boudreaux, University of Southwestern Louisiana, Civil Engineering

1986-87 None Selected

1987-88 Ward W. Marianos, Tulane University, Civil Engineering
David W. Hahn, Louisiana State University, Mechanical Engineering

1988-89 Max J. Patin, University of Southwestern Louisiana, Mechanical Engineering

1989-90 Brian S. Bourgeois, Tulane University, Electrical Engineering
Marc W. Losh, University of New Orleans, Electrical Engineering

1990-91 David A. Bonar, Louisiana State University, Electrical Engineering
Annette B. Oertling, Tulane University, Mechanical Engineering

1991-92 David R. Smat, Louisiana Tech University, Civil Engineering
Roger S. Stanley, Louisiana Tech University, Mechanical Engineering

1992-93 Charles R. Plummer, Louisiana Tech University, Civil Engineering
Kerry Frances Reed, Louisiana State University, Civil Engineering

1993-94 John C. Loyless, Louisiana State University, Civil Engineering
Todd M. Bauer, Louisiana Tech University, Biomedical Engineering

1994-95 Dana L. Montet, University of Southwestern Louisiana, Environmental Engineering
Kevin H. Stanley, Louisiana State University, Mechanical Engineering

1995-96 Cynthia B. Furlong, Louisiana Tech University, Biomedical Engineering
Michael J. Kurtz, Louisiana State University, Chemical Engineering

1996-97 Stephenie Elaine Hammons, Louisiana Tech University
Richard Michael Enmon, Tulane University

1997-98 Annette B. Oertling, Tulane University, Mechanical Engineering
Ms. Anu G. Bourgeois, Louisiana State University, Electrical Engineering

1998-99 Clifton Frilot, II, Louisiana Tech University, Biomedical Engineering
Kirby Hebert, University of Southwestern Louisiana, Civil Engineering

1999-00 Vette Torvik, Louisiana State University, Industrial Engineering
Matthew Hegler, Louisiana Tech University, Mechanical Engineering
Rafael Estrella, Louisiana State University, Engineering Sciences

2000-01 Rebecca F. Brennan, Tulane University, Biomedical Engineering
Geoffrey L. Forest, Louisiana Tech University, Mechanical Engineering
Byron F. McCaughey, Tulane University, Chemical Engineering

2001-02 Robert E. Watson, Jr., Louisiana State University, Civil Engineering
Kyle K. White, Tulane University, Biomedical Engineering

2002-03 Louise B. Lawson, Tulane University, Chemical Engineering
Keith Hoffman, Louisiana State University, Civil Engineering

2003-04 Carol A. Mullenax, Tulane University, Biomedical Engineering
Carol J. Hill, Louisiana State University, Civil Engineering

2004-05 Clayton M. Marbry, Tulane University, Chemical Engineering
Jerome G. Saltarrelli, Jr., Louisiana Tech University, Biomedical Engineering

2005-06 Rebecca C. Schramm, Louisiana State University, Biological and Agricultural Engineering
Kellie Huckaby, Louisiana Tech University, Biomedical Engineering

2006-07 Anne-Marie Jacob, Tulane University, Biomedical Engineering
Vertie L. Jordan, University of LA Lafayette, Civil Engineering

2007-08 Katherine Keeton, LA Tech University, Biomedical Engineering
Rick Nugent, Louisiana State University, Geotechnical Engineering

2008-09 Jeffrey Alan Kornuta, Louisiana State University, Mechanical Engineering

2009-10 Ryan M. Meyer, Louisiana State University, Mechanical Engineering

2010-11 William B. Ainsworth, Louisiana State University, Chemical Engineering

2011-12 Daniel W. Moller, Louisiana Tech University, Biomedical Engineering

2012-13 Raul Viera, University of Louisiana Lafayette, Systems Engineering

2013-14 Katherine N. Elfer, Tulane University, Biomedical Engineering

2014-15 Yasmeen Qudsi, University of Louisiana Lafayette, Graduate student in the Department of
Mechanical Engineering

2015-16 Ashley Picou Mikolajczyk, University of Louisiana Lafayette, Chemical Engineering

2016-17 Jacob M. King, University of Louisiana Lafayette, Systems Engineering
