

The Rural Utilities Service Telecommunications Program has several engineering positions to be filled in Washington, DC. There are three different vacancy announcements, and the positions range from GS-9 to GS-14. The Rural Utilities Service is a part of the U.S. Department of Agriculture's Rural Development mission area. The employees in these engineering positions will be reviewing loan and grant applications for financing broadband infrastructure in rural communities. This is an exciting place to work and we appreciate your help in getting the word out.

The job announcement numbers are as follows:

DEU-NO-2012-0003 GS-14 Supervisory Electronics Engineer (closing date 12/1/11)

DEU-NO-2012-0005 GS-9/11/12 Electronics Engineer (closing date 12/5/11)

DEU-NO-2012-0002 GS-13 Electronics Engineer (closing date 11/30/11)
