MATHCOUNTS: 2002 National Competition Awards Banquet (2 copies)	3:25	NSPE/MATHCOUNTS

Memo

To: State Executives
From: Kimberly Granados, CAE, Director, Professional Practice
Date: February 7, 2007
Re: Practice Divisions Canned Programs

NSPE Practice Divisions/Interest Groups completed very successful web seminars in 2005-2006. We sent this CD out in July, but just learned that many states never received it. We will be releasing these for sale shortly on the NSPE Web site, but in the spirit of the new NSPE and state centric movement, we want to extend to you these CDs of the canned programs for your use at state and chapter meetings.

- **“Introduction to Construction Disputes and Claims Avoidance and Resolution for Owners, Engineers and Contractors”**
- **“The P.E. on the Construction Site: Building Relationships and Great Projects with Field Labor, Management, Designers and Owners”**
- **“Adapting to Politics While Keeping Your Engineering Ethics”**
- **“Trends in Construction Professionalism”**
- **“Owner's Guide to Energy Performance Contracting”**

We plan for this to be just the beginning of the web seminars we present live. We hope to be able to turn over on-demand versions of future presentations for your use as well.

I have also included two presentations that have not been recorded that you may find useful. We hope to record these for free on demand download in the future.

- **Better Projects with EJCDC Documents**
- **Practice Division Overview** (which you may have seen at the Boston SSEC meeting)

The Practice Divisions are committed to helping the states with their needs. Providing programming for chapters, and providing speakers, are just a couple of the ideas that have come out of recent meetings. We readily wait to hear if there are other ways we can be of service.

Each zip file, when extracted contains the entire web presentation –power point and speaker. A simple green “Play” button should appear on your desk top. If you should have any questions, problems, suggestions or ideas you can contact me at kgranados@nspe.org.

Another copy of each presentation has been added to the NSPE Lending Library as well.
