Job Summary

The University of Louisiana Monroe's School of Construction Management is searching for **adjunct faculty** who have a passion in teaching on campus, face-to-face construction courses in the Construction Management Bachelor of Science degree program.

Some areas we may have needs for in the upcoming semesters are:

- Construction Graphics
- Construction Computer Applications
- Mechanical & Electrical Systems
- Mechanical & Electrical Plan Reading

In the future, we may expand the areas in which we need adjunct faculty for the construction management program.

Duties and Responsibilities

Under the direction of the Director of the School, the adjunct's responsibilities include the following:

- teaching assigned class material in accordance with learning objectives that are developed by the program
- developing and distributing the course syllabus with course schedule

- preparing and posting PowerPoint lectures and course assignments
- evaluating student performance through graded numerous course assignments and exams promptly and accurately
- maintaining records of student attendance, involvement, and progress
- communicating with students outside of class to provide supplementary instruction and respond to questions about the course
- submitting midterm and final grades
- complete a course assessment form with improvements for each assigned course
- completing university required training.

Minimum Qualifications

The candidate should possess a Bachelor's Degree in Construction Management, Construction Engineering, or a related field. In addition, appropriate licenses or managerial experience are required.

Supplemental Information

Required attachments: Please include the two attachments along with the application:

1. **Cover Letter**
2. **Resume**

Questions about the position should be directed to Dr. Ed Brayton, Director of the School of Construction at brayton@ulm.edu .
